Please answer the following questions briefly in the participant's own words:

1. What made your organisation join the AI training programme?

Answer: Because I want to learn how to improve online marketing for my shop and increase our sales.

2. How has your experience with the AI training programme been?

- a. What stood out as highlights or particularly memorable moments? Why?
- b. Were there areas where the programme could be improved?

Answer: It was a good experience because I am very interested in using AI for video creation. Another thing I would like from this program is to create a Telegram group after completing the training, so that everyone can discuss and ask questions when they face problems using AI.

3. In your own words, please describe how the programme has benefited your company and the results you have seen after completing it.

- a. Can you share a specific example or story of how your team applied what you learned?
- b. What change (small or big) have you noticed in your business since the training?

Answer: i would say that I have gained a lot of knowledge about using AI and its applications. However, the training duration is quite short, and I hope there will be more training sessions in the future. I actually do not have much to share, as my knowledge of AI is still very limited.

4. If you had to explain/describe the value of the AI training programme to another company or business leader, what would you tell them?

- a. Would you recommend this programme to others? Why or why not?

Answer: I will recommend this program to my friends and inform them that the training is free. The venue is spacious, and the team is very friendly and provides good care for the participants.
