

Global Gateway

Cambodia

Purpose

The Global Gateway perception surveys, which were conducted in 63 countries across the world in 2023, reflect our new approach to communication:

- **Data-driven**
- **Strategic**
- **Proactive**

They will provide valuable insights for the design and framing of our communication products and a clear baseline against which to assess the efficacy of our strategic communication actions. The surveys will be expanded and revisited at regular intervals to gauge the evolution of global public perceptions of the EU.

- **Main concerns and aspirations**
